# NOTES

"I had some ferns on my patio that were root-bound and chocking to death in their pots. In a last-ditch effort to save them, I bought larger pots and fresh soil, and moved them into the shade. In no time, they were dark green and vibrant and, much to my surprise, very much alive. I was inspired to apply the same time and care to the songs that had been pushing against the inside of my head." - Kathy Fisher

It's been fifteen years, millions of downloads and 8 albums since the duo, Fisher, first made a name for itself by taking the Mp3.com world by storm with their song "I Will Love You", but they are still very much alive and growing, and their ninth studio album, "3", is a strong testament to that fact.

If you ask Fisher member, Ron Wasserman, why he started writing a new album, he'll tell you that he doesn't remember. But Kathy Fisher has a different story: "I had been spending WAY too much time online, where so many people turn off their brain social filters in a most astounding way! The conversations I was having with people I thought I knew were eye-opening, shocking, heartbreaking, and insightful to an extremely uncomfortable degree! After a few weeks of being engulfed in the maelstrom,

there were so many emotions brewing inside of me that it seemed as though, if I didn't get them out, my head would explode!"

Fisher took to her small home studio to make rough song demos of those emotions, while Wasserman was down the street in his pro studio scoring for numerous televisions shows. "I would present these ideas a little here and a little there to Ron, usually when I thought he wasn't too exhausted to digest them. After giving him two or three songs that he didn't actually hate (laughs), I think it hit him like, 'Damn, is she doing an album without me?'" Before Kathy knew it, Ron was filling her drop box with song after song after song, and a new album was underway.

Although initially inspired by Kathy's reaction to online overload, "3" is far from being a one-dimensional response to her ride on the social media crazy train. While you can definitely feel the influence on songs like "We All Fall Down" and Fisher's powerful cover of Temple of the Dog's "Hunger Strike", you turn a corner and find "Home", written by Kathy to celebrate her sister's new abode, and the sweet "Come True", written by Ron for his and Kathy's son, Aron. Tucked in between those polar opposites of subject matter lie love, loss, yearning, celebrations, endings, new beginnings, confessions, apologies, love letters, and glimpses into the minds of two poignant songwriters who just keep expanding and expanding as artists. Luckily for us, they cannot be contained.

# HOME

This is the place where I want to sit down  
put my feet up and just breathe out  
Paint all the walls the colors of my soul  
carve my name in the cornerstone

Had a dream of what was “home”  
Now I’m here and I am home

This is the place where I want to create  
memories with the ones I love  
Smile for the camera and cover the walls with the  
faces that make me whole

Had a dream of what was “home”  
Now I’m here and I am home  
Have a dream to call my own  
Now it’s real and I am home

Had a dream of what was “home”  
Now I’m here and I am home  
Have a dream to call my own  
Now it’s real and I am home

This is the place where I want to sit down  
put my feet up and just breathe out

# BEST TIME OF MY LIFE

I'm kinda famous but you don't know my name  
My fifteen minutes went before they came  
Oh my, Oh my

I have so many friends I'll never meet  
They wouldn't know me if we passed on the street  
Oh my, Oh my

And this is the best time,  
the best time of my life  
This is the best time  
The best time of my life

I never know just what the next day will bring  
Will I be asked to do the laundry or sing?  
Oh my, Oh my

I shave the cat, go to the grocery store  
Then dance at raves'til three in the morning  
My, Oh my

And this is the best time,  
the best time of my life  
Yes, this is the best time  
the best time of my life  
1,2,3,4

And this is the best time,  
the best time of my life  
This is the best time  
The best time of my life

# LAST FOREVER

Here I go again, poetry for you  
Your eyes are so beautiful  
I love my life with you

And our love  
our love will last forever.  
Mmmm....  
Yes our love  
our love will last forever  
as long as you are mine  
as long as you are mine

Life is good for us  
the danger's all outside  
I feel so alive with you –  
Mmmm...so alive

Cause our love  
our love will last forever,  
Mmmm....  
Yes our love  
our love will last forever  
as long as you are mine  
as long as you are mine

Mmmm.....

And our love  
our love will last forever.  
Mmmm....  
Yes our love  
our love will last forever  
as long as you are mine  
as long as you are mine

## ADAGES

They say there's someone for everyone  
every dog has his day  
A broken clock is right twice a day

And if you love somebody  
better let 'em better let 'em go  
And if they ever do come back  
to you they're yours  
Oooh-Oooh-Oooh...

They say it's not about winning the race  
it's just good to run  
But all the nice guys finish last  
and the blondes have more fun

But it's the life within your years  
not the years in your life  
Ya' never know until you try and try and try  
Oooh-Oooh-Oooh...

The creepiest calm always comes  
before the storm  
But all the clouds are lined with silver  
and hope comes with the dawn

In every single life  
-you know a little rain's gonna' fall  
Just be careful what you wish for  
you might get it all  
Oooh-Oooh-Oooh...

Ignorance is bliss  
Ignorance is such bliss  
What you don't know  
What you don't know can hurt you  
can hurt you  
Oh the grass is so green on the other side  
On the other side it's perfect  
It's perfect  
It's perfect

## THE DREAM

Evy, let your hair hang down  
I'll take you in  
wash away your pain and sorrow  
clean you of any sins

I'll hold you close to me  
never let you go  
It's been such a long time  
and now you know

That I love you  
more than words can say  
And I love you  
more than anything  
Life was just a dream

It was all a dream

## COME TRUE

It is late at night  
the time I can clear my mind and say what  
I wanna' say to you

Your smile makes me pure  
your laughter, young soul, I feel it  
whenever I'm next to you

And all of your dreams will come true  
And all of your dreams will come true  
That's all I want for you

Sometimes I turn around and I  
can't believe what gifts I've found I  
look in your eyes and I see a little bit of me

And I can't say these things to your face  
you'd roll your eyes and say I'm embarrassing but  
some day these words will mean the world to you

And all of your dreams will come true  
And all of your dreams will come true  
That's all I want  
That's all I want  
for you

## ON MY WAY

In a little while  
I'll be on my way again  
In a little while  
I'll be on my way again, yeah

On my way again

The past fades away

In a little while  
I'll be running back again  
In a little while  
I'll be running back again – yeah

And there were times when  
I could breathe on my own  
And there were times  
I could breathe on my own

But now that is gone  
Now that is gone

On my way again

The past fades away

# AURORA

Aurora

Aurora

Who will save you now?

Aurora

Aurora

What can save you now?

With your children's dreams broken it seems

You'll never breathe again

And heaven don't smile on this world that's so wild

Maybe no one is coming back again

Aurora

Aurora

Who will save you now?

Aurora

Aurora

What can save you now?

**As the blood runs through your house**

## SAVE YOU

I can see by the way that you move  
you are lonely  
I can tell by the look in your eyes  
the way you stare  
You are looking for love, looking for love  
looking for someone  
to show that they care  
to show that they care

I can see you believe that life  
has no meaning  
I can see you believe  
there's no reason to smile  
Oh you look so alone, look so alone  
look so lonely  
'cause love starves your heart  
ooh, love starves your heart

Just hold on, just hold on  
Just hold on  
Just hold on, just hold on  
and I will save you  
and I will save you

# THE ONLY WAY I CAN LET YOU GO

I'm selling the ring I had made in your memory  
don't need it now  
and moving your picture behind the back row  
of my bookshelf

This is the only way  
I can let you go  
This is the only way  
I could let you go

Freezing inside as I told you goodbye  
I held you close  
whispered the words I knew you couldn't hear  
but you would know

It was the only way  
I could let you go  
It was the only way  
I could let you go

Shaking inside  
trying to write my anger down  
Singing the words that my heart couldn't scream  
until now

This is the only way  
I can let you go  
This is the only way  
I can tell you so

---

# WATER GUNS

Baby you are dying, I can see  
but I won't ever let you go  
I count your tears inside my head  
they scream to me, "Don't it let it go"  
Don't let it go

Ha-a Ha-a  
-Ha-a Ha-a  
-Ha-a Ha-a –ah-ah-ahhh-ah  
Ha-a Ha-a  
-Ha-a Ha-a  
-Ha-a Ha-a –ah-ah-ahhh-ahhhh

We've stood at the gates of hell  
and shot the fire with water guns  
And through the storms got our umbrellas  
and drew the sun inside each one  
We saw the sun

Ha-a Ha-a  
-Ha-a Ha-a  
-Ha-a Ha-a –ah-ah-ahhh-ah (we saw the sun)  
Ha-a Ha-a  
-Ha-a Ha-a  
-Ha-a Ha-a –ah-ah-ahhh-ahhhh

And baby you're amazing  
So amazing

Until I take my dying breath  
I will never let you go  
I will never let you go  
Ha-ah  
Ha-ah  
Ha-ah-ah ah-haaa

# THE LAST TIME

No one on earth  
could ever make me, make me feel  
so loved, so complete  
You and you only

The only answer to every reason  
that I can dream of  
The one solution to every problem  
that makes me crazy  
(I was a soul in your hand)

The last time we touched  
the last time you held me  
I was a soul in your hand

The last time we met  
the last time I held you  
I could see you clearly

Your sky is mine  
I walk beneath it, not alone  
When I call your name  
you always answer

And every time I begin to doubt you  
you give me more love

No hesitation, you come to me when  
my heart is beating so hard I cannot breathe

You give me all I need

And this is all I need

The last time we touched  
the last time you held me  
my eyes were not opened up

The last time we met  
the last time I held you  
I could see you clearly

# HAIKU

In a little while, when I can think  
I'll get out my book, write some poetry  
Something short and sweet; more red than blue  
I'll try to explain how I feel when I'm with you

I'll write it in Haiku and try to make it rhyme:

When I see your face  
Hear the laughter in your eyes  
My soul comes alive

Spend your life with me; we'll grow old, stay young  
Everyone will stare; won't that be fun?  
We will run full speed, long as we can  
I will hold you close, cause I'm so in love with you

I wrote you this Haiku to try and make you mine:

When I see your face  
Hear the laughter in your eyes  
My soul comes alive

And we will always be together

Will you marry me?

Cause I'm so in love with you  
I wrote you this Haiku to try and make you mine:

When I see your face  
Hear the laughter in your eyes  
My soul comes alive

I wrote this haiku and tried to make it rhyme

When I see your face  
Here the laughter in your eyes  
My soul comes alive

Cause I'm so in love with you  
Cause I'm so in love with you

# WE ALL FALL DOWN

Some of our lives  
are filled with pain and sorrow  
Some of our lives have more  
joy than we deserve

Some of our cups  
are dry right to the bottom  
Some of our cups just seem  
To overflow

Did we do something wrong  
and get what we deserved?  
Did we do something right  
And heaven smiled?

All I know is that I  
am trying hard down here to get it right

But sometimes  
we all fall down

Some of our dreams  
are never gonna' happen  
But some of our dreams will come true  
like a fairytale

Some of our faith will shatter  
and cut us with the pieces  
But some of our faith will bring us  
comfort til the end

Is there someone to blame  
when we crash to the ground?  
Is there no one to thank  
when we fly high?

I am not letting go  
of the straps behind  
these boots but I know

Sometimes  
we all fall down  
Sometimes  
we all fall down

## LET GO FIRST

You hold the door  
for me until I get through  
hold my coat for me until it's time to go  
hold your breath until  
we reach the bottom of a one hundred  
story apartment building

But when I hold you close  
you are always the  
first one to let go

You hold your cards  
so close they melt into your chest  
hold a grudge longer than anyone I've met  
When you know you're right  
you hold your head up high and when you are wrong  
you hold on to your pride

But when I hold you close  
you are always the  
first one to let go

Hold me like you'll never  
let me go and kiss me  
like we are one not by blood  
but by the fire

'Cause when I hold you close  
you are always the  
first one to let go

Why do you let go?  
Don't let go

# CRAZY

The world has gone crazy  
grab your children and run away  
The lead, it is flying  
brought to you by the NRA

We are a speck of dust  
in the universe's hands  
Deserve to be all gone  
so creation can start again, start again

Mmmmm...Start again  
Mmmmm...Start again  
Mmmmm...Start again

My brothers and sisters  
cannot guide me on what to do  
They're too busy texting;  
taking pictures of their food

While the world falls to pieces  
and our blood runs in the streets  
And we're watching TV  
while the fire beneath us breathes

Mmmmm...Start again  
Mmmmm...Start again  
Mmmmm...Start again

The world has gone crazy  
Grab your children and run away

## HUNGER STRIKE

I don't mind stealing bread  
from the mouths of decadence  
But I can't feed on the powerless  
when my cup's already overfilled

But it's  
on the table, the fire's cookin'  
And they're farming babies while slaves are workin'  
Blood is on the table, the mouths are choking  
And I'm going hungry  
I'm going hungry

I don't mind stealing bread  
from the mouths of decadence,  
But I cannot feed on the powerless  
when my cup's already overfilled

But it's  
on the table, the fire's cookin'  
And they're farming babies, while the slaves all workin'  
Blood is on the table, the mouths are choking  
And I'm going hungry  
I'm going hungry  
I'm going hungry  
And I'm going hungry

## NEVER FORGET ME

Like a girl from the sky  
I crash down from so high  
Like a man you catch my fall  
Like a man so in love

And you will never forget me  
And I will never forget you  
And you will never forgive me  
And I will never forgive you

Late at night is when you are  
in my dreams - I am yours  
and you don't know me well yet  
There's no mistakes, no regrets

And you will never forget me  
And I will never forget you  
And you will never forgive me  
And I will never forgive you

And I don't know what I'm feelin' inside what I'm feelin' inside  
And you don't know what you're feelin' inside what you're feelin' inside  
Do you?  
Do you?

And you will never forget me  
And I will never forget you  
And you will never forgive me  
And I will never forgive you

## THE WAY SHE LOVES

I have angel  
saves me from harm  
She makes the rainbows  
after the storm

That's the way she loves  
That's the way she loves

And when I'm hurting  
she loves to cry  
Tears of indigo  
and violet fill the sky  
and violet fill the sky

That's the way she loves  
That's the way she loves

She waits to hold me again  
She waits to hold me again

She flies out the window  
into the night  
slays all my demons  
gives me her life

That's the way she loves  
That's the way she loves

How she loves to cry  
for me

---

## HARD TO BE HER

I found peace in the shadows  
of the graves behind my school  
Faded names and broken angels  
soothed me when the world was cruel

And it's so hard to see  
And it was hard to be her

Packed my bags, left West Virginia  
Three hundred dollars in my hand  
Time to go be who I was born to be  
Knew California would understand

And it's so hard to see  
And it's so hard to be her

Ha-ah-ah-ah-ah

Grace of God and strangers' kindness  
carried me to where I am  
Now I live beside the ocean  
where I find peace in the sand

But it's still hard to see her  
And it's still hard to be her  
It's so hard to see her  
And it's still hard to be her...
